WHO ARE EGUCHI IWAO

Founded in 1907, this company has evolved into a leading provider of paints, coatings, and specialty materials in Japan. After 18 years of successful growth across Asia, Eguchi Iwao South Africa was established in 2012, followed by the inauguration of a European branch in the UK in September 2019.

The company's operations in Japan and Europe are closely associated with several major global coatings manufacturers. These partnerships have enabled the company to consistently deliver advanced paint products and solutions, building a strong reputation for reliability and quality.

The European division is committed to maintaining this standard of excellence. It collaborates with innovative companies known for their expertise in the industry, like Kovax, and has expanded its services to cover additional business sectors throughout Europe.

COATINGS & SOLUTIONS
TOGETHER WITH
SERVICE & SOLUTIONS

A FAMILY BUSINESS

JTAPE, a family business founded in 2003, manufacture innovative masking solutions for the collision repair and refinish market. We listen to the challenges experienced by painters and design patented products that add value, standardize process and improve efficiencies during the masking process.

AN INTERNATIONAL BRAND

From our manufacturing facility in Macclesfield, UK, we have a core portfolio of over 50 individually designed products, supplying to 63 countries globally and offering quality products, customer service and marketing.

OUR VALUE PROPOSITION

On average, our product range speeds up all masking processes by 3x and increases productivity (including rework) by more than 12x with perfect results.

- INCREASE PRODUCTIVITY
- REDUCE LABOUR COSTS
- MAXIMISE PROFITS

PART NO	METRIC	IMPERIAL
1015.1535	15mm x 35m	5/8" x 114'
1015.2225	22mm x 25m	7/8" x 81'

FEATURES
Fast and efficient aperture masking
Seals and protects inside of vehicle
Precise fingertip adjustment
No primer build-up on panel edges
BENEFITS
Dramatically reduces process time
No unwanted primer overspray
Even application of primer
Leaves a feathered finish
AREAS OF APPLICATION
A, B and C Pillars
Bonnet / Hood
Boot / Trunk

PRIMESHIELD

PART NO. 1015

Primeshield is the smart solution for masking any gaps that require priming and in particular high-build priming. Applied in seconds, it prevents overspray getting inside a vehicle and provides a soft, feathered finish. Primeshield is estimated to be up to 20 times faster to prepare for spraying.

PART NO	METRIC	IMPERIAL
1011.2050	20mm x 50m	3/4" x 165'

FEATURES
One continuous length
For use in all apertures including the A-Pillar
Adjustable between coats
Temperature resistant 90°C/194°F
Offset adhesive
Retains its shape to re-join
Used on fixed and moving part
BENEFITS
No waste unlike competitive products that can accidentally remove multiple lengths
Suitable for all panel gaps
Creates a softer edge
Suitable for low bake ovens
Prevents hard paint edges
Perfect product positioning every time
AREAS OF APPLICATION
A, B and C Pillars
Bonnet / Hood
Boot / Trunk

ADVANCED FOAM

MASKING TAPE

[Advanced Foam Masking Tape](#) is an innovative alternative to standard, round, smooth edge foam masking tapes. This tape is designed to mask all apertures to prevent the ingress of paint during spraying, providing a high quality finish and dramatically reducing process time.

PART NO	METRIC	IMPERIAL
1016.3530	35mm x 30m	1 1/2" x 99'

FEATURES
Unique patented 2 in 1 masking product
Hidden adhesive
Detachable Primeshield piece
Paint absorbent
BENEFITS
No need to de-mask and re-mask between sealing and painting
Prevents hard primer/ground coat edges
One step process
Helps to create a soft finish
AREAS OF APPLICATION
A, B and C Pillars
Bonnet / Hood
Boot / Trunk

PART NO	METRIC	IMPERIAL
1013.1350	13mm x 50m	1/2" x 165'

FEATURES
Fixes to the door, hood, trunk apertures
Temperature resistant to 90°C/194°F
2 convenient sizes
Paint absorbent
BENEFITS
A fast efficient way to fill a gap
Suitable for low bake ovens
For use on standard and commercial vehicles
Helps to create a soft finish
AREAS OF APPLICATION
B and C Pillars
Bonnet / Hood
Boot / Trunk

PRIME & PAINT FOAM MASKING TAPE

PARTNO.1016

Prime & Paint Foam Masking Tape is the perfect solution that supports a three-stage process; primer sealer, color application and clear coat finish with one masking application. Prime & Paint Foam Masking Tape is the unique combination of two innovative products: Primeshield and Advanced Foam Masking Tape, providing the bodyshop considerable time and material savings.

SMOOTH EDGE FOAM MASKING TAPE

PART NO. 1013

Smooth Edge Foam Masking Tape is ideal for use in door apertures, hood and trunk lid openings openings and other vehicle apertures. It is perfect for the sealing part of a painting operation and saves you time with reduced paint lines.

PART NO	METRIC	IMPERIAL
1012.2025	20mm x 25m	¾" x 81'
FEATURES		
Feathered edge over long lengths		
Seamless blend from old to new paintwork		
Temperature resistant to 160°C/320°F		
Non-stretch		
BENEFITS		
Consistent finish		
Eliminates rework		
Suitable for low bake ovens and infra-red drying systems		
No unwanted elongation		
AREAS OF APPLICATION		
B and C Post		
Swage/style lines		
Bonnet / Hood		
Boot / Trunk		

NO EDGE BLENDING TAPE

PART NO. 1012

Non-stretch, No Edge Blending Tape is the smart solution for masking body lines, panel edges and rocker panels to create a seamless finish from old to new paintwork.

PART NO	METRIC	IMPERIAL
1018.1525	15mm x 25m	5/8" x 81'
FEATURES		
Conforms around difficult areas without kinking		
Seamless blending from old to new paintwork		
Temperature resistant to 90°C/194°F		
Paint absorbent		
One size for every application		
Gives feathered paint edge		
BENEFITS		
Suitable for blending where flexibility is key		
Eliminates rework		
No hard paint edges		
Suitable for low bake ovens		
Ideal for any body repair scenario		
No primer build-up		
AREAS OF APPLICATION		
Contoured swage/style lines		
Bumper Edges		
Wheel Arches		
Roof Panel Lines		
Bridging Screen Gaskets/Rubbers		

FLEXI NO EDGE BLENDING TAPE

PART NO. 1018

Flexi No Edge Blending Tape is the innovative and unique solution for masking curved panel edges and rocker panels. It makes masking around corners a speedy process even on the tightest of turns. It is the most effective solution for masking fuel doors/filler caps and provides a feathered paint edge, eliminating rework.

DUO MASKING TAPE

PART NO. 1150

Duo Masking Tape is highly versatile and can be used to mask a wide variety of applications around the vehicle. Made from high quality materials, there is adhesive on both sides and a rigid edge allows the masking of individual panels. Its primary application is to mask weatherstrip along the top of the doors, creating a void when spraying cant rails and roof pillars with no adhesive exposure.

PERFORATED+ TRIM LIFTING TAPE

PART NO. 1058

Perforated+ Trim Lifting Tape is designed to lever back rubbers/gaskets around windshields, bodyside mouldings and fog lights, leaving no edge when spraying and improving efficiency. It's higher grab adhesive means no lift and a thicker plastic provides excess leverage for robust trims. Perforated for easy-tear.

PART NO	METRIC	IMPERIAL
1150.7520	75mm x 20m	3" x 66'
FEATURES		
Creates a void when spraying can't rails/roof pillars		
2:1 application around other panels, doors, trunk/fender		
Perforated sections for easy tear		
Seals and protects inside of vehicle		
Easy lifting tab		
BENEFITS		
Eliminates need to mask weatherstrip		
Easy application		
No need for scissors or knives		
Prevents overspray		
Easy removal		
AREAS OF APPLICATION		
Roof/Cant Rails		
Door Rubber Seals		
Wing/Fender/Guard		
Bonnet / Hood		
Boot / Trunk		

PART NO	METRIC	IMPERIAL
1058.5010	50mm x 10m	2" x 33'
FEATURES		
Specially formulated high grab adhesive		
Thicker plastic edge		
Perforated sections allow for easy tearing		
Flexible and translucent substrate		
Clean removal adhesive		
BENEFITS		
No lifting on a wide range of substrates		
Increased leverage for robust rubbers and trims leaving no edge		
No requirement for a blade or scissors		
Contours around tight corners with visibility to the surface below		
No residue upon removal		
AREAS OF APPLICATION		
Window Rubber Seals		
Door Rubber Seals		
Bodyside Mouldings		
Rear Quarter Lights		

PART NO	METRIC	IMPERIAL
1055.5010	50mm x 10m	2" x 33'
FEATURES		
Fits all parts of the car unlike competitor products		
Perforated sections allow for easy tearing		
Easily fits around corners		
3 different sizes in one product		
Temperature resistant to 160°C/320°F		
BENEFITS		
No need for different types of lifting products		
Easy application even in difficult areas		
No need for scissors or knives		
Covers all trim depths and allows for SKU consolidation		
Suitable for high bake ovens		
AREAS OF APPLICATION		
Window Rubber Seals		
Door Rubber Seals		
Rear Quarter Lights		

PERFORATED TRIM MASKING TAPE

PART NO. 1055

Perforated Trim Masking Tape is a universal lifting tape which fits all parts of the car. Its paper construction allows it to absorb paint unlike the film versions. It's the quick, clean way to mask rubber and trims, ensuring a perfect finish every time.

PART NO	METRIC	IMPERIAL
1185	50m	165'

FEATURES
High quality crepe paper tape
Temperature resistant up to 160°C/320°F for 30 minute
Pressure-sensitive rubber-based adhesive
A variety of width options are available from 1.5mm to 48mm
BENEFITS
Residue-free removal
Excellent adhesion to a variety of materials, including plastics, rubbers, trims and wheels
Performs well in wet strip applications
Provides excellent resistance to paint-flaking
AREAS OF APPLICATION
A, B and C Pillars
Bonnet / Hood
Boot / Trunk

160°C HIGH TEMPERATURE CREPE MASKING TAPE

PART NO. 1185

160°C High Temperature Crepe Masking Tape is a high strength, high performance, thick, heavy tape. It gives good, instant adhesion, to provide sharp paint lines. It is easy to tear and can be removed cleanly from all surfaces.

PART NO	METRIC	IMPERIAL
1120	50m	165'
FEATURES		
Premium Crepe Paper with rubber-based pressure sensitive adhesive		
Temperature resistant up to 120°C/248°F for 30 mins		
Flexible		
Can be used with all types of automotive, marine, decorative and industrial paint systems		
BENEFITS		
Strong tape with good adhesion to a variety of surfaces		
Suitable for medium bake ovens and infra-red drying systems		
Conformable		
No need for different tapes - can be used with water-based, solvent and enamel paint systems		
AREAS OF APPLICATION		
B and C Post		
Swage/style lines		

120°C BLUE MASKING TAPE

PART NO. 1120

JTAPE 120°C Blue Masking Tape is a high performing masking tape with a specially formulated adhesive for instant grab in conjunction with a thicker crepe tape for masking off essential areas in Automotive, Rail, Marine, Construction and DIY at Home.

It can be used with water based, enamel, one and two pack paint systems. Its high temperature resistance can withstand 120°C/248°F and infra-red drying systems.

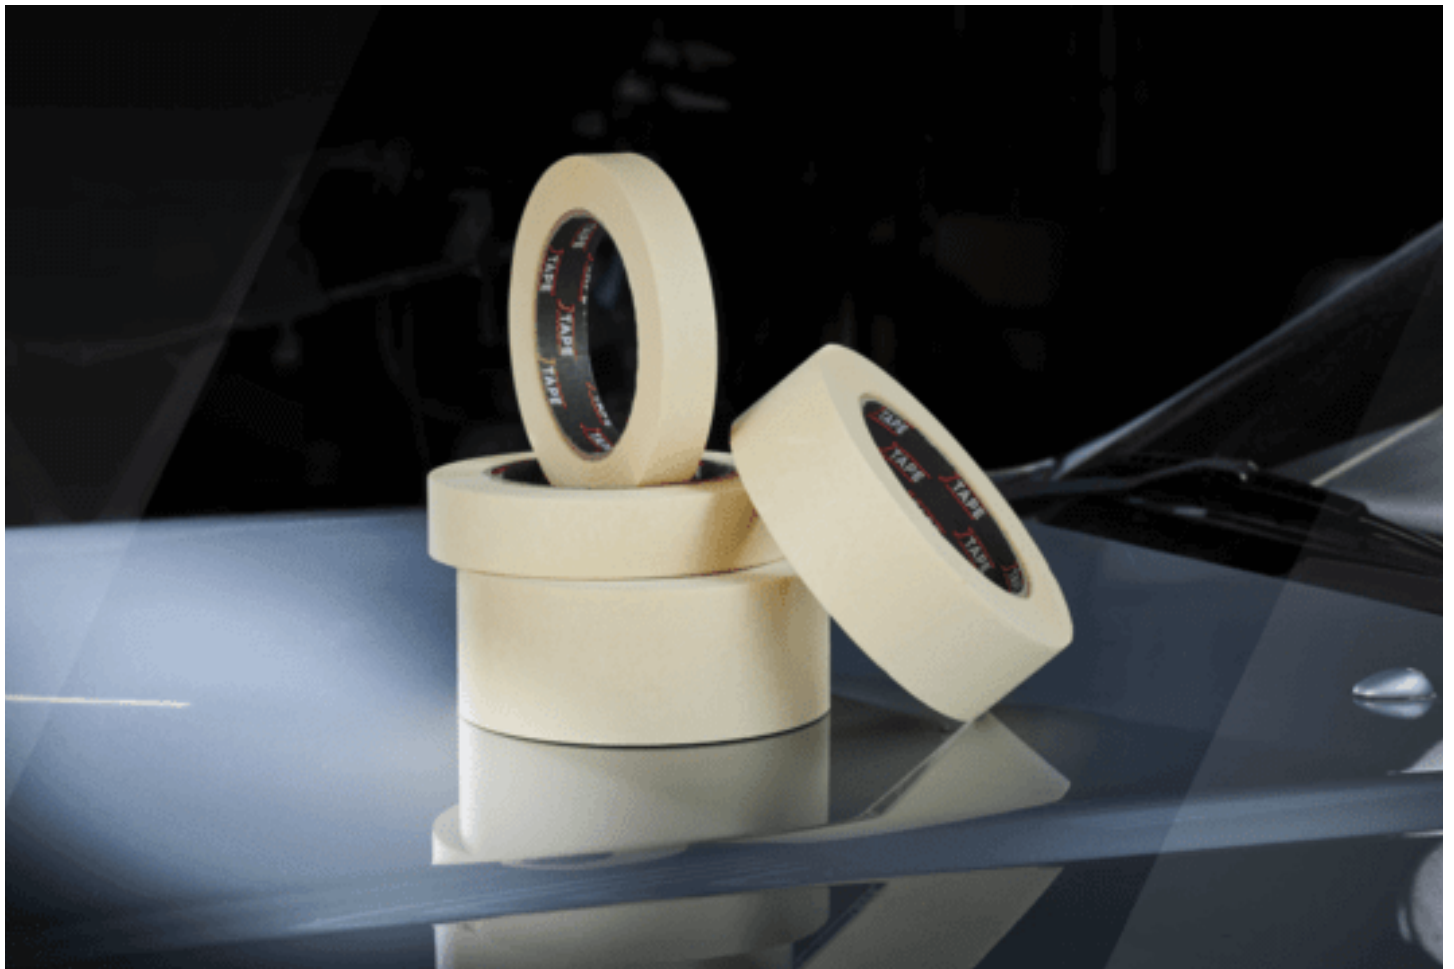

PART NO	METRIC	IMPERIAL
1180	50m	165'
FEATURES		
Premium crepe paper with rubber-based adhesive		
Temperature resistant up to 80°C		
Flexible		
Can be used with all types of automotive, marine, aerospace, decorative and industrial paint systems		
BENEFITS		
Strong Crepe with good adhesion		
Suitable for low bake ovens		
Flexible conformability and resistance		
No need for different tapes, can be used with water-based, solvent and enamel paint systems		
AREAS OF APPLICATION		
B and C Pillars		
Bonnet / Hood		
Boot / Trunk		

80°C PREMIUM MASKING TAPE

PART NO. 1180

80°C Premium Masking Tape is a general all-round crepe tape for masking off areas when spraying. It is ideally suited to use with other JTAPE products in the body-shop, with a strong adhesion and is heat-resistant to temperatures of 80°C/176°F. Premium Masking Tape can be easily removed, leaving no residue.

PART NO	METRIC	IMPERIAL
1125	50m	165'
FEATURES		
Temperature resistant to 130° up to 30mins		
Ideal for straight lines		
Rice paper, ideally suited for both solvent-based and water-based paint systems		
Acrylic adhesive for highly protective bonds on sensitive surfaces		
No bleeding/creeping/spidering under masked line		
UV resistant for up to 14 days		
BENEFITS		
Can be used with low bake and infra-red drying systems		
Suitable for multicolour applications		
No need for multiple tapes		
Excellent adhesion on all surfaces		
Can be used as a fine line tape		
Suitable for prolonged exterior applications		
AREAS OF APPLICATION		
Contoured swage/style lines		

130°C ORANGE PRECISION MASKING TAPE

PART NO. 1125

JTAPE 130°C Flat Orange Precision Masking Tape is a medium tack masking tape for interior and exterior applications. It's an orange rice paper crepe masking tape, with a custom formulated acrylic-based adhesive.

It also offers clean, residue-free removal even when exposed to temperatures up to 130°C/266°F for up to 30 mins and can be exposed outside for up to 14 days.

PART NO	METRIC	IMPERIAL
1113.01.555	1.5mm x 55m	1/16" x 180'
1113.03.555	3mm x 55m	1/8" x 180'
1113.06.555	6mm x 55m	¼" x 180'
1113.12.555	12mm x 55m	1/2" x 180'

FEATURES

Newly formulated translucent backing
Thinner than most other fine line tapes
Highly flexible and conformable
Increased grab over other fine line tapes
Temperature resistant up to 150°C/302°F
Short term UV resistance
Can be used with all types of, automotive, marine, aerospace, decorative and industrial paint systems
No bleeding/creeping/spidering under masked line

BENEFITS

Ideal for seeing through to the surface below
Suitable for highly complex designs
Designed for following contours and tight curve
Reduces the chance of lifting from difficult to mask substrates
Suitable for high and low bake and infra-red drying systems
Suitable for use under UV lamps
Safe with water, solvents and enamel-based paints
Confidence that all masked areas will be left with a clean line

AREAS OF APPLICATION

Contrast colours/colour separation
Plastic parts
Painted and non-painted surfaces
Striping
Customising

PURPLE TRANSLUCENT FINE LINE MASKING TAPE

PART NO. 1113

Purple Translucent Fine Line Masking Tape is highly flexible and conformable making it ideal for following contours and tight curves.

GREEN FINE LINE MASKING TAPE

PART NO. 1105

Green Fine Line Masking Tape is perfect for intricate masking on multi-coloured paint jobs. It is very flexible making it easy to curve on flat surfaces and shapes with tight contours. Temperature resistant up to 150°C/302°F for at least 45 minutes.

PART NO	METRIC	IMPERIAL
1105.01555	1.5mm x 55m	1/16" x 180'
1105.0355	3mm x 55m	1/8" x 180'
1105.0655	6mm x 55m	¼" x 180'
1105.1255	12mm x 55m	1/2" x 180'

FEATURES
Can be applied over newly painted surfaces due to its rubber based pressure sensitive adhesive
Ideal for straight lines whilst also remaining flexible
Temperature resistant up to 150°C/302°F
Can be used with all types of, automotive, marine, aerospace, decorative and industrial paint system
No bleeding/creeping/spidering under masked line
BENEFITS
Leaves no ghost marking
Especially suitable for multi-colour applications
Suitable for high bake ovens
Safe with water, solvents and enamel-based paints
Confidence that all masked areas will be left with a clean line
AREAS OF APPLICATION
Contrast colours/colour separation
Striping
Plastic parts
Customising
Painted and non-painted surfaces

PART NO	METRIC	IMPERIAL
1111.01.555	1.5mm x 55m	1/16" x 180'
1111.0355	3mm x 55m	1/8" x 180'
1111.0655	6mm x 55m	1/4" x 180'
1111.0955	9mm x 55m	3/8" x 180'
1111.1255	12mm x 55m	1/2" x 180'

FEATURES
Can be applied over newly painted surfaces due to its rubber based pressure sensitive adhesive
Ideal for straight lines whilst also remaining flexible
Temperature resistant up to 150°C/302°F
Can be used with all types of, automotive, marine, aerospace, decorative and industrial paint system
No bleeding/creeping/spidering under masked line
BENEFITS
Leaves no ghost marking
Especially suitable for multi-colour applications
Suitable for high bake ovens
Safe with water, solvents and enamel-based paints
Confidence that all masked areas will be left with a clean line
AREAS OF APPLICATION
Contrast colours/colour separation
Striping
Plastic parts
Customising
Painted and non-painted surfaces

ORANGE FINE LINE MASKING TAPE

PART NO. 1111

Orange Fine Line Masking Tape is thinner and more translucent than other fine line masking tapes making it ideal for seeing through to the painted surface. It is perfect for straight lines while also being highly flexible. Temperature resistant up to 150° C/302°F for at least 45 minutes.

PART NO	METRIC	IMPERIAL
1119.1210	12mm x 10m	1/2" x 33'

FEATURES

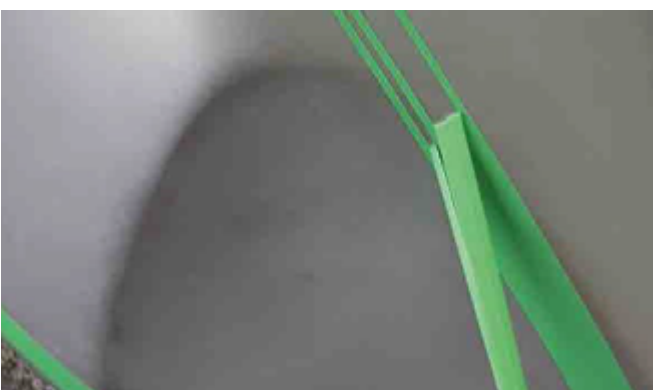

Can be applied Extra flexible
Non-bleed
Made of 8 x 1.5mm/1/16" strips
Heat resistant to 150°C/302°F

BENEFITS

Perfect for creating intricate patterns
Leaves no residue
Gives the painter flexibility with their designs
Suitable for medium bake ovens

AREAS OF APPLICATION

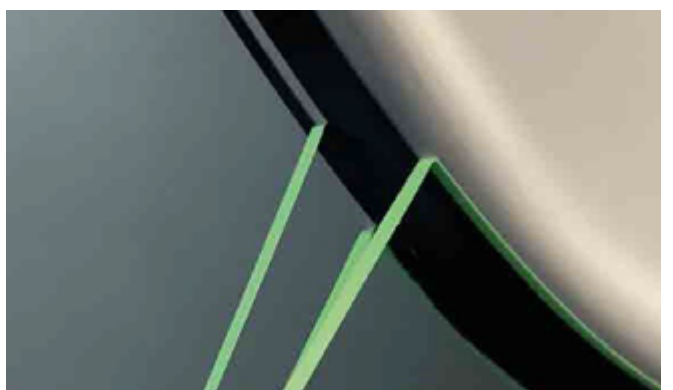

Contrast colours/colour separation
Striping
Plastic parts
Bike tanks/helmets
Painted and non-painted surfaces

CUSTOMISING TAPE

PART NO. 1119

Customising Tape has been created for striping with extra flexibility in mind, allowing the user to mask the tightest of contours. By stripping out sections, a variety of stripe widths and shapes can be created. Made from our most flexible fine line tape, the 8 x 1.5mm (8 x 1/16") strips allow creativity and parallel pinstriping around curves and bends.

SEAM SEALING TAPE

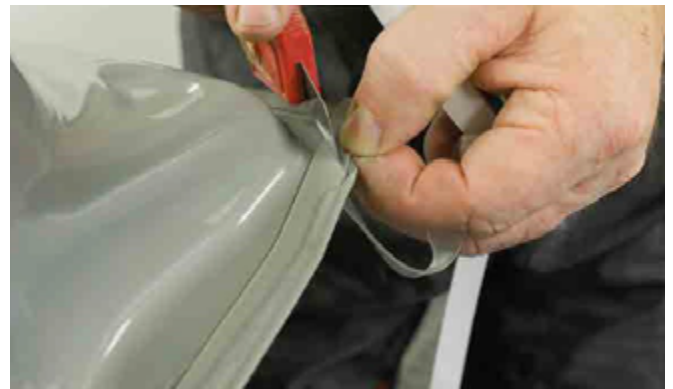

PART NO. 2205

Seam Sealing Tape has a flat profile and is used to replace or repair the seams on automotive door skins, flanges, tail gates, bonnet/hoods and general clinched areas. It has excellent resistance to solvents, chemicals, UV and heat, making the tape bond securely to a wide range of substrates. Once applied, the acrylic adhesive provides a permanent waterproof bond and seal and is ready for painting.

Other sizes available upon request.

PART NO	METRIC	IMPERIAL
2205.0910	9mm x 10m	3/8" x 33'
2205.1210	12mm x 10m	1/2" x 33'
2205.2210	22mm x 10m	7/8" x 33'

FEATURES
Can be painted over straight away
Transparent
Flexible
Resistant to solvents, chemicals, UV & heat
BENEFITS
No curing time or requirement for adhesion promoter
Simple & easy to use
Can be used on various parts of the car including door jams and trunk gutter applications
Bonds securely to a very wide range of substrates
AREAS OF APPLICATION
Door skins
Flanges
Tail gates
Bonnets/hoods
General clinched areas

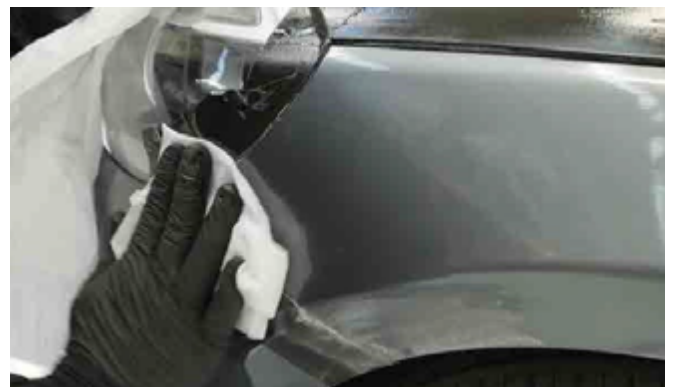

PART NO	METRIC	IMPERIAL
203.5050	50mm x 50m	2" x 165

FEATURES
78 weaves per inch
Shot blast resistant
High adhesion
Waterproof
Premium rubber adhesive
Cloth material
Conformable
BENEFITS
Twice as strong as standard tapes of this nature
Only one layer required
Can be applied to a variety of surfaces
Suitable for indoor and outdoor applications
Clean Removal
Easy to tear
Applies to irregular surfaces without lifting
AREAS OF APPLICATION
Adjacent panels
Fog lights
Windows
Chrome door handles
Trims

PREMIUM CLOTH PROTECTION TAPE

PART NO. 2203

Premium Cloth Protection Tape is constructed from a polyethylene cloth laminate with 78 weaves per inch, twice as many as standard cloth/gaffer tape. This gives the tape considerable strength and allows the tape to be torn in both directions. Waterproof, sand blast resistant, with a high-tack adhesive, it can be removed easily leaving no adhesive residue. Use to protect adjacent panels, fog lights, windows, chrome door handles and trim.

PART NO	METRIC	IMPERIAL
1190.2430	24mm x 30m	1" x 98'

FEATURES
Chequered squares
Black and white squares
BENEFITS
Ensures paint coverage even with poor lighting
Optimum opacity of paint achieved even with poor coverage colours
AREAS OF APPLICATION
Any masked area for paint

PART NO	METRIC	IMPERIAL
2110.0610	6mm x 10m	¼" x 33'
2110.0910	9mm x 10m	3/8" x 33'
2110.1210	12mm x 10m	1/2" x 33'
2110.2210	22mm x 10m	7/8" x 33'

FEATURES
Closed-cell foam construction
Strong adhesion
High strength performance acrylic adhesive
BENEFITS
Ideal for both internal and external applications
Suitable for fixings in all weather conditions
Bonds emblems, nameplates, plastic panels and metals
AREAS OF APPLICATION
Plastic Trims/Panels
Emblems
Number/name plates
Metals

PAINT CONTROL TAPE

PART NO. 1190

Paint Control Tape is a chequered tape that gives the paint sprayer the ability to monitor the optimum opacity of paint applied by viewing the paint coverage over the black and white squares.

GREY DOUBLE SIDED ACRYLIC TAPE

PART NO. 2110

Grey Double Sided Acrylic Tape is a reinforced acrylic 1.1mm closed-cell foam tape with a high-tack and utilises a high strength performance acrylic adhesive. The closed-cell foam construction makes the tape ideal for both internal and external fixings in all weather conditions. Grey Double Sided Acrylic Tape has excellent adhesion to a wide range of substrates including plastics & metals and is ideal for bonding emblems, number/nameplates, plastic panels and metals. Available in 4 sizes.

PARKING SENSOR MASKING DISCS

PARTNO.4002

Parking Sensor Masking Discs are the ideal solution for protecting parking sensors and surrounding rubber gaskets during the repair process. Our adhesive cover protects the sensor preventing damage when sanding, painting and polishing, with a tab for easy removal.

PART NO	METRIC	IMPERIAL
4002.6017	18mm diameter x 60	¾" diameter x 60 discs

FEATURES
Easy lifting tab
Avoids contamination of sensors
One size fits most applications
Clean removal, no residue
BENEFITS
Aids application and removal of the discs
Can be used for sanding, painting and polishing
Saves time avoiding a tricky masking process or worse, the disassembly of the sensors
Removal whilst clearcoat is wet, avoids bridging
AREAS OF APPLICATION
Parking sensors
Rubber seals

CLEAR LOGO TAPE

PARTNO.2210

Clear Logo Tape is a double sided permanent carrier-free transfer adhesive designed specifically for re-applying logos, emblems and badges from all types of vehicles.

PART NO	METRIC	IMPERIAL
2210.5030	50mm x 300mm x 10 sheets	50mm x 300mm x 10 sheets

FEATURES
Self-cutting pressure sensitive adhesive
Double sided permanent carrier-free transfer adhesive for professional re-application of vehicle decals
10 sheets per sleeve
BENEFITS
No need for scissors or a blade
No need for expensive decal replacements
Reduces cost and speeds up the reclaim process
AREAS OF APPLICATION
Logos
Decals

PART NO	METRIC	IMPERIAL
1095.1417	170cm x 170cm x 20	67" x 67" x 20

FEATURES

Elastic centre piece
Paint absorbent
Temperature resistant
Individually wrapped in a convenient dispensing box

BENEFITS

Flexible for all sizes of wheel
Prevents paint contamination
Can be applied to a variety of surfaces
Suitable for indoor and outdoor applications
Suitable for low bake cycles
Keeps them clean and avoids contamination

AREAS OF APPLICATION

Masking tyres
Spraying wheels/rims

WHEEL REPAIR MASK

PART NO. 1095

Wheel Repair Mask is the most effective way to mask a tyre when spraying an alloy wheel. It saves considerable time and materials over traditional masking methods and is a SEMA Global Media Award Winner.

WHY USE EGUCHI IWAO

We collaborate with paint manufacturers, automotive factories, independent producers, and industry representatives, fostering a functional working experience for our clients through these partnerships.

Our commitment is to guide you in selecting premier brands and products that meet your needs, identify application solutions that align with your process layout and environmental regulations, and address any challenges that emerge, thereby ensuring mutual growth and enhancement.
